CENTREPOINT HOUSING PROJECT

With a happy heart and joyful smile, we can finally announce that two people moved into the Centrepoint Christian Church house for homeless people.

For many years it was a vision of Centrepoint to have an opportunity to house people in need. Last year the dream came true. Together with Hope Into Action and generous investors, a new house was made available to begin shaping the shared vision to further the Kingdom of God through housing support. A lot of things had to get organized and prepared. During the Christmas time, we got many donations of food and furniture which we happily used for the rooms. We cleaned and repaired and prepared.

In December the Investors visited our Church and finally we were able to meet and celebrate with them in person. Together with them we went to the house to bless and pray for it, our work and the future tenants. It was a great time with of focused prayer and great acoustic worship.

Just a few weeks ago, Centrepoint and Hope Into Action started to interview men who could be the future tenants. It was a long process with interviews, meetings and last preparations but after a week, two men were able to move into their new home.

During their short-term residency, these tenants will receive support to make radical life changing spiritual, practical and emotional decisions. Through weekly meetings between the tenants and the support worker, the tenants will join the Journey Partnership to grow in their spiritual life. The support workers are members of the church who received training from Hope Into Action to work with the tenants.

The vision of Centrepoint is, that in the next years the past tenants, who moved on, will also be a part of the support worker team and are engaged in Centrepoint's Support Work and church network.

Please pray for a successful work with the tenants and a good relationship between them and their support worker.
